Meron Inc is a California-based professional services provider specializing in the architectural and engineering sectors. With both A and C-10 contractor licenses, our diversity certifications as a recognized disadvantaged, small, veteran, minority-owned, and local small business enterprise underscore our commitment to inclusive business practices. Isaac Meron, founder, a Certified Energy Manager (CEM®), with over 35 years of rich construction experience.

Electrical & Low Voltage Procurement Services

We source and supply quality electrical and low-voltage equipment tailored to project needs.

1. **Materials Sourcing:** Utilizing our extensive network of suppliers to ensure all materials meet industry standards.
2. **Tailored Solutions:** Offering specific electrical components and systems according to project requirements.
3. **Quality Assurance:** Implementing stringent quality control to guarantee the highest standards of products.
4. **Logistical Support:** Ensuring timely delivery and coordination with other project components.
5. **Compliance:** Adhering to all relevant regulations and standards in the industry.

Why Choose Meron Inc for Electrical Procurement?

- **Unparalleled Expertise:** Over three decades of industry experience.
- **Diversity Certifications:** Emphasizing our inclusive business approach.
- **Customized Services:** Tailoring solutions to meet the unique needs of each project.
- **Reliable Partnership:** Committed to client satisfaction and long-term relationships.
- **Sustainable Practices:** Focusing on environmentally responsible procurement.
